

## PATTERSON DENTAL ANNOUNCES EAGLESOFT 19

May 22, 2017 (ST. PAUL, Minn.) – Patterson Dental today announced new updates to Eaglesoft, its clinical and practice management software. Eaglesoft 19 empowers dental practices to further streamline efficiency and simplify their daily processes, with the full backing of Patterson’s best-in-class service and support.

“We’re committed to putting our customers first, and the updates to Eaglesoft 19 reflect feedback we heard directly from them,” said Cecile Schauer, Vice President of Marketing, Commercial Software. “These new features will allow our customers to continue focusing on the most important part of running their dental practices – patient care.”

The updates to Eaglesoft 19 include the following benefits for practices:

- **Supplementary insurance:** This feature allows customers to store and submit claims, as well as post insurance payments for up to three patient dental insurances, or two dental insurances and one medical insurance, in the system.
- **Process payments efficiently:** With Eaglesoft’s new CareCredit integration, customers can explore financing options, enter payments, look up account information and confirm available credit directly within the system.
- **Improved medical claim form:** Now customers can simply print a medical claim form directly from Eaglesoft without requiring pre-printed CMS 1500 forms.
